

Safetread™ Anti-Slip Stair & Flooring System

Safetread™ Stair Nosings - Data Sheet

Product Description

Safetread™ Stair Nosings are a GRP stair nosing designed to provide slip resistance to existing steps.

Characteristics

Safetread™ Stair Nosings comply with the Disability Discrimination Act by using a brightly coloured, yellow nosing to aid the visually impaired. A choice of two grades are available, heavy or light duty, depending on application. Safetread™ Stair Nosings have a quartz gritted surface which offers good thermal shock resistance, corrosion resistance and stiffness making it the perfect product when wear and corrosion resistance are primary performance requirements.

Colour

Safetread™ Stair Nosings are available in Yellow RAL 1003.

Weight

2.8kg - 3660mm x 70mm x 55mm x 3-4mm thick.

Tests

All grip grades of Safetread™ Stair Nosings have surpassed the minimum requirements of the 'extremely low potential for slip' rating specified by the UK Slip Resistance Group Guide 2000.

Slip Risk Classification based on Pendulum Test Values

Results	Dry Reading	Wet Reading	Slip Risk
Heavy Duty	73	64	Low
Light Duty	73	67	Extremely Low

KEY

Pendulum Value	Slip Risk
0-24	High
25-35	Moderate
36-64	Low
65+	Extremely Low

Technical Data

Safetread™ Stair Nosings are manufactured with high quality fibreglass impregnated with Orthophthalic resin.

An inseparable bond is created between the quartz and the glass reinforced plastic ensuring a long term integrity of the slip resistant surface.

Maintenance/Cleaning

Remove spills immediately from surface, washing with water. Pressure wash on low setting periodically to remove dirt from between grit. Check annually for damage to grit and GRP substrate and repair as required.
