

ANTI-SLIP FLOORING SOLUTIONS
BY

suigeneris

ABOUT US

At Safe Tread, we specialise in manufacturing anti-slip stair and flooring products that help prevent slips, trips and falls across a wide range of environments.

Established in 1996, we're proud to be part of Sui Generis International Ltd, and all of our products are made right here in the UK.

Whether you're upgrading safety in a workplace, public space or residential setting, we offer reliable, cost-effective solutions designed to perform in even the harshest conditions. And all of our products come with a 10-year guarantee so you can be confident you're getting quality that lasts.

SUSTAINABILITY

We're committed to building a safer, more sustainable future. All of our anti-slip products are manufactured in the UK using a tough, specialist resin made from recycled plastic bottles, helping to reduce waste and lower our environmental impact. From design to delivery, sustainability is built into everything we do.

Striving to deliver products which are 100% recyclable by 2030

Recycled over 3 million plastic bottles through the use of an innovative resin

Working towards using energy supplied entirely from renewable sources

ZERO

Committed to reaching net-zero for our scope 1 & 2 emissions by 2030

WHY BUY FROM US?

We provide more than just anti-slip products—we deliver quality, reliability, and peace of mind.

Our GRP anti-slip solutions are manufactured in the UK, giving us complete control over quality, consistency and lead times. Our products are trusted by businesses and organisations across the world.

With fast quoting, in-house production, and nationwide delivery and installation, we make it easy to get the right solution, exactly when you need it.

Made in the UK

Made in the UK and comes with a 10-year guarantee.

Quick Delivery

Supplied within days, not weeks

Nationwide Installation

Easy to install – or leave it to us.

ANTI-SLIP STAIR & DECKING STRIPS

Durable GRP stair strips provide instant grip for slippery steps. They're a quick and easy safety upgrade for timber, concrete, or metal stairs, and are ideal for domestic, commercial, and outdoor use.

Supplied pre-drilled and ready to install, they deliver long-lasting slip resistance without compromising the existing stair surface.

Choose Your Colour

Available in 15 colours or customise to any BS / RAL colour of your choice.

Cut To Size Service

Available in lengths of 600, 800, 1000, 1200, 2000, and 3000mm – or cut to your exact size.

Easy Installation

Option for undrilled or predrilled for quick and easy installation.

Low-Profile Design

Chamfered edge blends neatly with existing steps without affecting footfall. Available in fine or medium grit.

ANTI-SLIP FLOOR SHEETS

Designed for durability and safety, our Premium GRP Floor Sheets provide a tough, slip-resistant surface ideal for ramps, walkways, factory floors and more.

Manufactured from high-quality fibreglass with a heavy-duty grit finish, they deliver reliable grip even in wet or oily conditions. Easy to install and built to last, they're the ideal solution for high-traffic environments where safety matters.

Choose Your Colour

Available in 9 colours or customise to any BS / RAL colour of your choice.

Cut To Size

Available in 1200mm or 2400mm x 1200mm, or cut to your exact size requirements.

Versatile Grit Options

Available in Fine, Medium, and Heavy Duty Grit options to suit your specific needs.

Non-Conductive

GRP serves as an insulator, making it suitable for high voltage (HV) plants and equipment. It can also come with a carbon finish to offer static discharge properties for electro-static sensitive environments.

ANTI-SLIP TACTILE PAVING PLATES

Our anti-slip tactile paving enhances safety for visually impaired pedestrians with a detectable raised surface. It provides hazard warnings and directional guidance, improving navigation in public spaces.

Made from durable, weather-resistant GRP, it's suitable for high-traffic areas and reduces slip risks in wet or icy conditions while meeting DDA compliance.

Available in 3 Variations

Available in Corduroy, Blister Off-Street, and Blister On-Street.

Lightweight

Convenient, fast, and safe installation material that minimises manual handling injuries and can be easily cut on-site without requiring hot works permits.

Fire Resistant & Non-Conductive

ideal for application in and around HV plant and equipment. Meets Class A2-s1 in accordance with EN ISO 9239-1

ANTI-SLIP STAIR NOSING

Anti-slip stair nosing improves visibility and grip on step edges. Ideal for helping to meet Building Regulations and DDA guidelines, Safe Tread stair nosing is manufactured from GRP and available in contrasting colours for enhanced safety. It's suitable for indoor or outdoor use on most stair materials.

Choose Your Colour

Available in 9 colours or customise to any BS / RAL colour of your choice.

Cut To Size Service

Available in lengths of 600, 800, 1000, 1200, 2000, and 3000mm – or cut to your exact size.

Easy Installation

Option for undrilled or predrilled for quick and easy installation.

Low-Profile Design

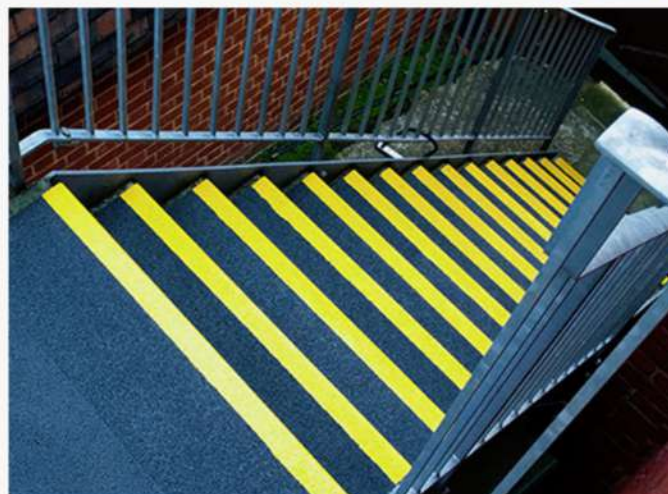

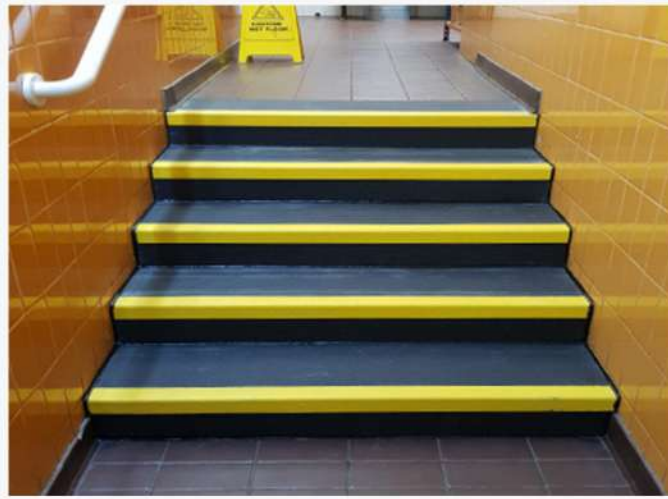

Chamfered back edge for a flush fit. Available in fine or medium grit.

ANTI-SLIP STAIR TREADS

Heavy-duty GRP stair tread covers are designed to completely cover the step area, including the nosing, providing maximum anti-slip protection.

These treads are perfect for refurbishing worn or slippery steps in public buildings, factories, schools, and outdoor spaces. Available in standard and extra-deep formats.

Choose Your Colour

Available in standard, fine, and heavy-duty grit options with 13 color variations, or customisable to any BS/RAL color.

Cut To Size Service

Available in lengths of 800, 1000, 1200, 2000, and 3000mm – or cut to your exact size.

Easy Installation

Option for undrilled or predrilled for quick and easy installation.

DDA Compliant

Contrasting colours and slip-resistant surfaces to improve step edge visibility and safety for visually impaired users. (except single coloured)

COMMITTED TO COMPLIANCE

We are dedicated to ensuring our anti-slip stair and flooring products not only enhance safety but also comply with stringent UK regulations and standards.

Our unwavering dedication to these standards and certifications reflects our commitment to providing products that are not only effective but also align with the highest safety and quality benchmarks.

ISO Certifications

- ISO 9001:2015: Ensures consistent product quality through a robust Quality Management System.
- ISO 14001:2015: Highlights our dedication to minimizing environmental impact via sustainable practices.

Product Compliance

- Disability Discrimination Act (DDA): Our products meet visual contrast requirements for safety, particularly for the visually impaired, with LRVs exceeding the recommended difference.
- Slip Resistance Standards: Products are tested per BS 7976-2 to provide exceptional slip resistance.
- Fire Resistance Compliance: Meets Euro Class 1 and ISO 11925-2 standards for fire safety.
