

## ***NEWS RELEASE***

### **SUI GENERIS LAUNCHES NEW FIBREGLASS WATER FEATURES**

Sui Generis has launched a range of striking yet contemporary GRP fibreglass water features ideal for large domestic gardens and major residential and commercial developments.

Aqua Corona is a circular hand-crafted water feature designed to transform domestic, urban or commercial landscapes. Sui Generis also offers the Aqua Corona Semi-Circular water feature and both are highly durable and require the minimum of maintenance.

**Aqua Corona Water Feature**

Sui Generis' water features are made from 100 per cent fibreglass and benefit from an indefinite lifespan, are highly durable, easy-to-clean, weatherproof and virtually maintenance-free. All items can be made in any BS/RAL colour to match any colour. The water features are modular construction, which enables easy installation and come with a five-year guarantee.

**Aqua Corona Water Feature**

**Aqua Corona - Semi Circular Water Feature**

To complement the water features Sui Generis also offers a range of planters from their GeoMet collection.

**Cube Planters**

### Halo Planters
